

Logo Specifications for Hypersecu

Our logo

The inner white area indicates **Clear Space**. Keep this area free of any other elements. Your best approximation is acceptable.

The outer gray area indicates the **Safe Zone**. Other elements can be safely positioned here.

Logo colors

Hypersecu Blue
CMYK: 100,10,29,20
#008598

White is used for darker backgrounds. The color of our icon may be changed into grayscale only (see below).

Acceptable Variations

A stacked variation of our logo is available where it is better suited for the layout.

Usage guidelines

Do not:

- Distort, rotate, skew, or recolor our logo
- Embellish the logo with shadows, patterns, or intricate backgrounds
- Add taglines to our logo
- Alter the positioning of logo elements

- Place our logo on backgrounds that may obscure the colors, text, or icon
